

The diagram illustrates a printing layout with three main types of lines: fold lines (green), a cut line (red), and a safety line (blue). The layout is divided into four quadrants by a central horizontal line and two vertical lines. The central horizontal line is the fold line, with arrows pointing left and right indicating where the job will be folded. The two vertical lines are also fold lines. The red line is the cut line, located between the two green lines. The blue line is the safety line, located between the two red lines. The text explains that the red line is where the finished product will be cut, the blue line is the safety line for anything not getting cut, and the green lines are where the job will be folded. The finished size is 8.53125 x 5.5, and the size with bleed is 5.625 x 17.125.

RED LINE IS THE CUT LINE

THIS IS WHERE THE FINISHED  
PRODUCT WILL BE CUT

BLUE LINE IS THE SAFETY LINE

ANYTHING THAT IS NOT GETTING CUT  
MUST BE INSIDE THIS BLUE LINE

GREEN LINES ARE THE FOLD LINES

THIS IS WHERE THE JOB WILL  
BE FOLDED

FINISHED SIZE- 8.53125 x 5.5  
WITH BLEED- 5.625 x 17.125
